ROTOZIP® Introduces New Cordless CR18L Saw *Advanced Lithium-Ion Technology Delivers Enhanced Performance for Demanding Applications*

Mt. Prospect, Ill. February 18, 2009 – ROTOZIP today announced the introduction of its cordless CR18L, the only 30,000-RPM lithium-ion cordless spiral saw currently on the market. This latest innovation was engineered to provide finished results to meet even the most demanding applications and materials.

At 30,000 RPMs, the CR18L's power, speed, and lightweight body allow users to take the benefits of Spiral Saws anywhere. High performance cutting, paired with advanced lithium-ion technology, enhances productivity and minimizes downtime. Litheon™ technology also guarantees maximum life cycle, minimum self-discharge and no deteriorating memory effect.

At only 2.8 lb. with battery, the CR18L is ideal for cutting materials such as wood, tile, drywall, underlayment and laminate. From installing walls to making cut-outs in ceilings, the CR18L's superior ergonomics allow for optimal gripping, leading to better balance and control. Its super-slim soft-grip body improves user comfort, especially when working around hard-to-reach surfaces. Though extremely compact, the CR18L provides a 20 percent higher power-to-weight ratio when compared to leading competitors.

Other CR18L features include:

- **Non-Marring Depth Guide:** Protects finished walls and surfaces; provides an improved line of sight when cutting
- **Cast Aluminum Front Housing:** Improves durability
- **Built-In LED Information Display:** Fuel gauge and overload indicator on tool allows battery charge and tool performance to be monitored

The CR18L batteries are compatible with all other Bosch 18-Volt Litheon™ power tools. Whether users are tackling home or professional projects, the CR18L is the right tool for the job.

###

About ROTOZIP®:

ROTOZIP was founded in 1972 when a professional drywall contractor sought a better, faster way to cut drywall. Focused on saving time and money while improving his results, this single vision soon spawned a complete line of high-performance professional tools, accessories and attachments for cutting a wide variety of building materials. Today, ROTOZIP continues to build on the same strong foundation established more than two decades ago as the world's No. 1 Spiral Saw[®] system. For more information, visit www.ROTOZIP.com or call 877-ROTOZIP.
